

## Sp - Task: Moving houses

Your father/mother has got a new job. Now you have to move to another part of the country. There are two different options of places to live.

- Discuss them with another member of the family.
- Talk about the advantages and disadvantages of the possibilities mentioned.
- You have to come to an agreement. So you have to decide on one.

	<b>House with a garden in a small village</b>
<ul style="list-style-type: none"><li>▪ garden / nature</li><li>▪ nice area</li><li>▪ quiet</li><li>▪ lots of clubs</li><li>▪ clean air</li><li>- ...</li></ul>	<ul style="list-style-type: none"><li>▪ no shops</li><li>▪ long way to school</li><li>▪ need a car</li><li>▪ nosey neighbours</li><li>▪ ...</li></ul>

<b>Flat with 4 rooms and a balcony in the town</b>	
<ul style="list-style-type: none"><li>▪ good shopping facilities</li><li>▪ cinemas and theatres</li><li>▪ public transport</li><li>▪ no gardening</li><li>▪ ...</li></ul>	<ul style="list-style-type: none"><li>▪ loud</li><li>▪ lots of traffic</li><li>▪ pollution</li><li>▪ many neighbours</li><li>▪ ...</li></ul>

## Sp - Task: We have to move

Your father/mother has got a new job. Now you have to move to another part of the country. The estate agent has sent your father three different offers.

- Discuss them with your father.
- Mention the advantages and disadvantages of living in each of the different types of accommodation and areas.
- Agree on one offer.

Offer A	Offer B	Offer C
 <p data-bbox="204 1249 518 1326"><b>Detached house in a suburb of Liverpool</b></p>	 <p data-bbox="609 1258 960 1335"><b>Flat with a balcony in the centre of Liverpool</b></p>	 <p data-bbox="1024 1258 1359 1335"><b>Terraced house in an old part of Liverpool</b></p>

## Sp - Task: Settling down

(monologue)

Once you have got a good job, maybe you would like to settle down.  
Think about the given possibilities and talk about advantages and disadvantages:

“single”

„married“

**Sp - Task: Settling down**

(monologue)

Once you have got a good job, maybe you would like to settle down.  
Think about the given possibilities and talk about advantages and disadvantages:

**“single”**

**„married“**

**SP - Task: Eco - friendly**

(monologue)

**Are you an  
eco-friendly  
person?**

## Sprachmittlung - Mediation

Du kannst jetzt schon gut Englisch lesen und verstehen, auch wenn du selbst manchmal noch nicht ganz glücklich bist mit deiner Englischkompetenz.

Bedenke aber, wie viele Menschen diese Sprache gar nicht beherrschen! Dabei gibt es im täglichen Leben immer wieder Situationen, in denen du mit Englisch aushelfen kannst, auch wenn es z.B. um die Verständigung zwischen einem Dänen und einem Deutschen gehen sollte. Du kannst für diese Personen schon ganz gut als Dolmetscher auftreten.

Sicherlich hast du dann kein Wörterbuch zur Hand! Okay- das braucht man auch nicht.

Du solltest z.B. Informationen auf Hinweisschildern oder aus Anzeigen ins Deutsche übersetzen. Es ist nicht erforderlich, dass du alles Wort für Wort übersetzt. Du sollst vielmehr die wichtigsten Informationen in deinen eigenen Worten wiedergeben.

### M - Task:

**THANK YOU FOR KEEPING YOUR  
VOICES DOWN**

### M - Task: Estate agency

#### ***Clarks and Spencers – estate agents***

##### **Affordable offers and years of experience – what more can you ask for?**

You are young and eager to move out? Stop searching for a flat – this is what you have been looking for!

Our project “On your own, but not alone” has been designed especially for students and trainees. Take a look and you’ll be amazed!

#### ***Accommodation # 2010-340-01***

To let - Room to let in a lively shared flat (all together 8 tenants): Shared kitchen, bathroom and huge living room with TV-set, telephone and stereo. The small, but nicely furnished room has a small desk, chair, bed and wardrobe. Once a week there’s a cleaning service. Pets are always welcome, but the landlord must be informed beforehand. The flat is close to local shops and it is only a 1- minute walk to the bus stop. This interesting offer is addressed to younger tenants only!

**The rent is £100/month. contact us 0800-876-354.**

***Your friend is thinking about working in Scotland after you have left school. You’ve found some information on the Internet and want to inform him/her in German now.***

***Tell your friend about:***

- ***the estate agent***
- ***the offer***

## M - Task: Eco-friendly Washing

### We must change our habits

Our washing machines need electricity. And electricity produces Co<sub>2</sub>. Co<sub>2</sub> is bad because it creates a layer in the environment. The sun's rays get in and then the heat can't get out so the planet keeps getting warmer. Then the glaciers and ice caps melt so the sea level goes up.

### What can we do?

- **Use lower temperatures**  
Simply switching from 40 degrees Celsius to 30 degrees uses around 40% less electricity! 60 degrees will kill dust mites. So switching from 95 degrees to 60 degrees helps the environment. Using modern detergents, you will get the same results as you would get from washing at a higher temperature.
- **Use full loads only**  
You should wait until you have filled your washing machine completely before doing a wash, or if washing can't be avoided doing smaller fills, use the eco- programme.
- **Switch off Standby**  
Never leave your washing machine on standby - this is the same for all the electrical appliances in your home.
- **Eco-friendly drying**  
Tumble-dryers use loads of electricity. The *Environment Agency* estimates that around £88 million are spent on using tumble dryers in the UK each year.  
Wherever possible, dry your washing outdoors! But if it's raining or just too cold outside, be sure to always spin clothes before putting them into the tumble dryer. For indoor drying a drying rack is an eco-friendly alternative.

***Your uncle is interested in this article about eco-friendly washing. As he does not speak any English, you help him to read the text. Find the different possibilities for eco-friendly washing.***

## M - Task: "Go Green!" Club

### Our „Go Green!“ Club at Hilton Park School informs: Solar power and green energy for free!

Do you want to enjoy free energy? Then come and join our club!  
We've already created our own simple solar water heater – it is quite small and very inexpensive! Come and experiment and create your own water heater – the simplest heater ever at the cost of a lemonade or a bag of crisps!

We always try to keep it simple – you just can't go wrong!

Take a closer look at what we've already designed and visit our exhibition in the school library: a great show that gives you a good idea of what you yourself could create at our club meetings.

**Join us on Wednesday afternoon 15.30 – 17.30 in the Physics laboratory.**

### Our recycle/ reuse tip of the week

You love your Kellogg's for breakfast? Then don't throw away the bag out of the cornflakes packet. This plastic bag can have a second life when the cornflakes have been eaten!

Wash the bag and simply reuse it –

- You can put food for the freezer in it!
- Use it for tomatoes or lettuce to keep them fresh in the fridge!
- Why not put cookies or biscuits in it that need to be transported to a party, bazaar or school fete?!

**Remember: Every little helps!**

**See you on Wednesday!**

***Your school wants to start a "Go Green Club" and work together with other clubs, too – you want to be part of the club and have collected pieces of information on what different international schools do.***

***Inform your friends at your school about the ideas of Hilton Park School.***
